SUMMARY

Software Developer and BS Information Technology student experienced in web, mobile, and backend development with hands-on skills in Java, Python, Spring Boot, Kotlin, Flutter, and MongoDB. Brings practical leadership experience in managing cross-functional tasks, project coordination using agile workflows, prompt engineering, and building resilient software solutions.

EXPERIENCE

Team Lead Intern — BUILTIN Soft

Sep 2026 – Present

Bahawalpur, Pakistan

- Lead and coordinate technical team members, delegate sprint tasks, and evaluate overall progress.
- Utilize Jira and ClickUp for project tracking, task execution, and streamlined workflow optimization.
- Facilitate team meetings, align project objectives, and oversee code quality in development pipelines.

Junior Software Developer — Codigo Solutions

Mar 2026 – Present

- Develop scalable backend logic and RESTful API services using Java Spring Boot and relational databases.
- Participate actively in software architecture, unit testing, debugging, and Git/GitHub version control workflows.
- Contribute significantly to client service projects, including backend features for TimeAudit.

Software Development Intern — Click Chain Academy

Sep 2025 – Dec 2025

- Supported modern web interface development and assisted in front-end component integration.
- Executed technical testing, bug resolution, feasibility research, and technical documentation drafting.

ANDROID APP DEVELOPMENT TRAINING

Android App Development — DevCastle Training Institute

Jun 2026 – Aug 2026

Bahawalpur, Pakistan

- Completed intensive practical training building native Android mobile applications with Java, Kotlin, and Jetpack Compose.
- Gained hands-on proficiency in Dart, mobile UI/UX state management, and mobile publishing workflows.

PROJECTS

Digital Wellbeing App

Ongoing Project

- Developing a mobile application designed to promote healthier digital habits, active usage tracking, and user notification scheduling.

School Management System

Ongoing Project

- Engineered an operational system managing student records, attendance, grading modules, and administrative workflows.
- Implemented features to streamline academic data management and improve administrative efficiency.

Floral Apparel — Clothing Brand E-Commerce Website

- Developed a responsive e-commerce storefront with product catalog, cart, and checkout Functionality.

TimeAudit — Service-Based Project

- Assisted with backend business logic implementation, user tracking, and data processing at Codigo Solutions.
- Developed and maintained API integrations to support efficient communication between application components.
- Assisted with database operations, testing, and debugging to improve system reliability and performance.

TECHNICAL SKILLS

Programming:	Java, Kotlin, Dart, Python, JavaScript, SQL
Frontend:	React.js, HTML5, CSS3, shadcn/ui, Next.js
Mobile Development:	Flutter, Android SDK, Jetpack Compose
Backend & Database:	Spring Boot, REST APIs, MySQL, MongoDB
Tools & Utilities:	Git/GitHub, Postman, Swagger, Jira, ClickUp
Core Competencies:	Prompt Engineering, AI-Assisted Dev, OOP, Agile Team Leadership

EDUCATION

BS Information Technology — Sep 2023 – Present
The Islamia University of Bahawalpur — Bahawalpur, Pakistan

Intermediate — Pre-Medical — Completed
Riphah International College — Hafizabad, Pakistan

Matriculation — Completed
Government High School Sagar Kalan — Hafizabad, Pakistan

LANGUAGES

Urdu
Native Proficiency

English
Professional Working Proficiency

Punjabi
Conversational

PROFESSIONAL STRENGTHS & METHODOLOGY

Agile Team Leadership: Managing task delegation, milestone tracking, and cross-team coordination.

AI & Prompt Engineering: Utilizing modern AI tooling to accelerate development and debugging.

Full-Stack Thinking: Bridging responsive web UI's with Spring Boot REST backends.

Software Architecture: Clean Object-Oriented Programming (OOP) and structured API design.
